GOOD TIME GUIDE

SUMMER

Make sure
your **summer**
goes to

PLAN

- 1 Have a game plan.** Hoping to meet someone? Then get prepared...
- 2 Know your limits.** The more you drink the less likely it is you'll use a condom or dam.
- 3 Out without a bag? No pockets?** Fit condoms in your shoe/sock/bra/pants!
- 4 On the pill?** Take your pill well before you start drinking.
- 5 Keep an eye on your drink;** make sure no one spikes it.
- 6 No condoms.** Loads of bars and clubs have condom machines. Keep condoms at home just in case.
- 7 You're out...** but your contraception is at home. Take a pill with you if you can.
- 8 Safer sex when you're drinking.** Alcohol affects coordination. If you're drunk, can you or your partner still put a condom on?
- 9 Alcohol and drugs can affect our judgement** and makes it difficult to give informed consent to sex. Remember you cannot consent to sex if you are unconscious or 'out of it' through drug or alcohol use.
- 10 Don't want sex? Don't have it!** Never let a partner or friends pressure you. Man or woman, you can say NO to sex at any time.

PAY

ATTENTION...

**BEING AWARE,
IS BEING SAFE**

LOOK AFTER
